

The rollable rescue stretcher RollUP RL700G & RL2000G

Catalogue 2022

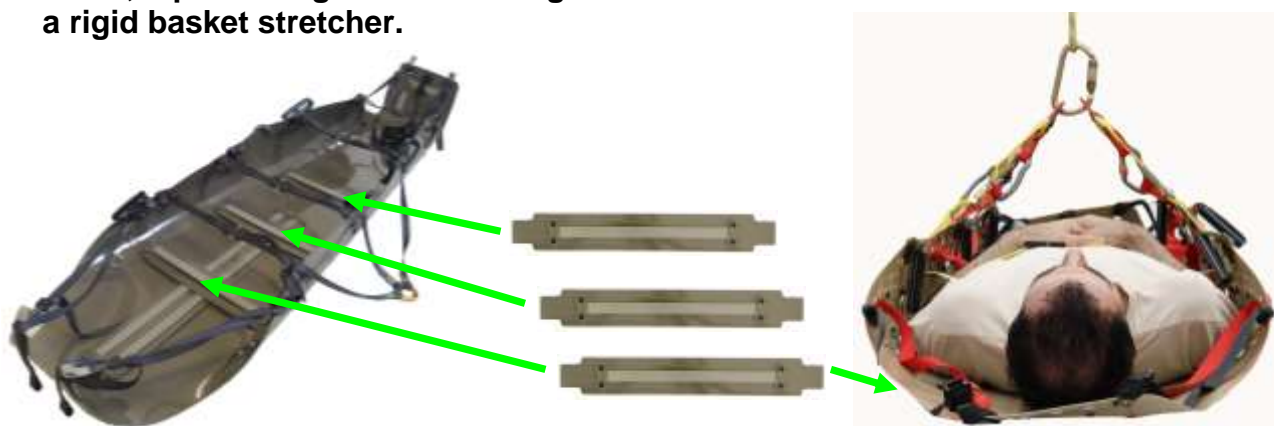

RollUP

- *the patient friendly rollable stretcher !*

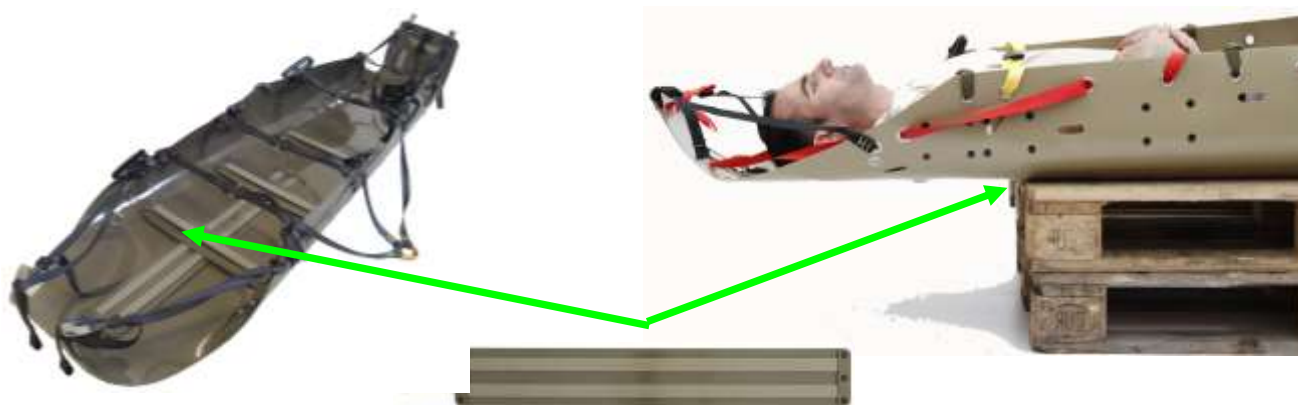

- **No compression of chest, hips and legs !**

Three removable crosswise affixed glass fibre stiffeners prevents the painful and dangerous compression of the chest, hips and legs while offering the same comfort as a rigid basket stretcher.

- **Protected spine !**

One removable lengthwise affixed stiffener protects the spine when the stretcher is pulled over an edge or rough ground.

- **Stable footrest**

The removable foot plate gives a stable, secure and comfortable support for the patient's feet

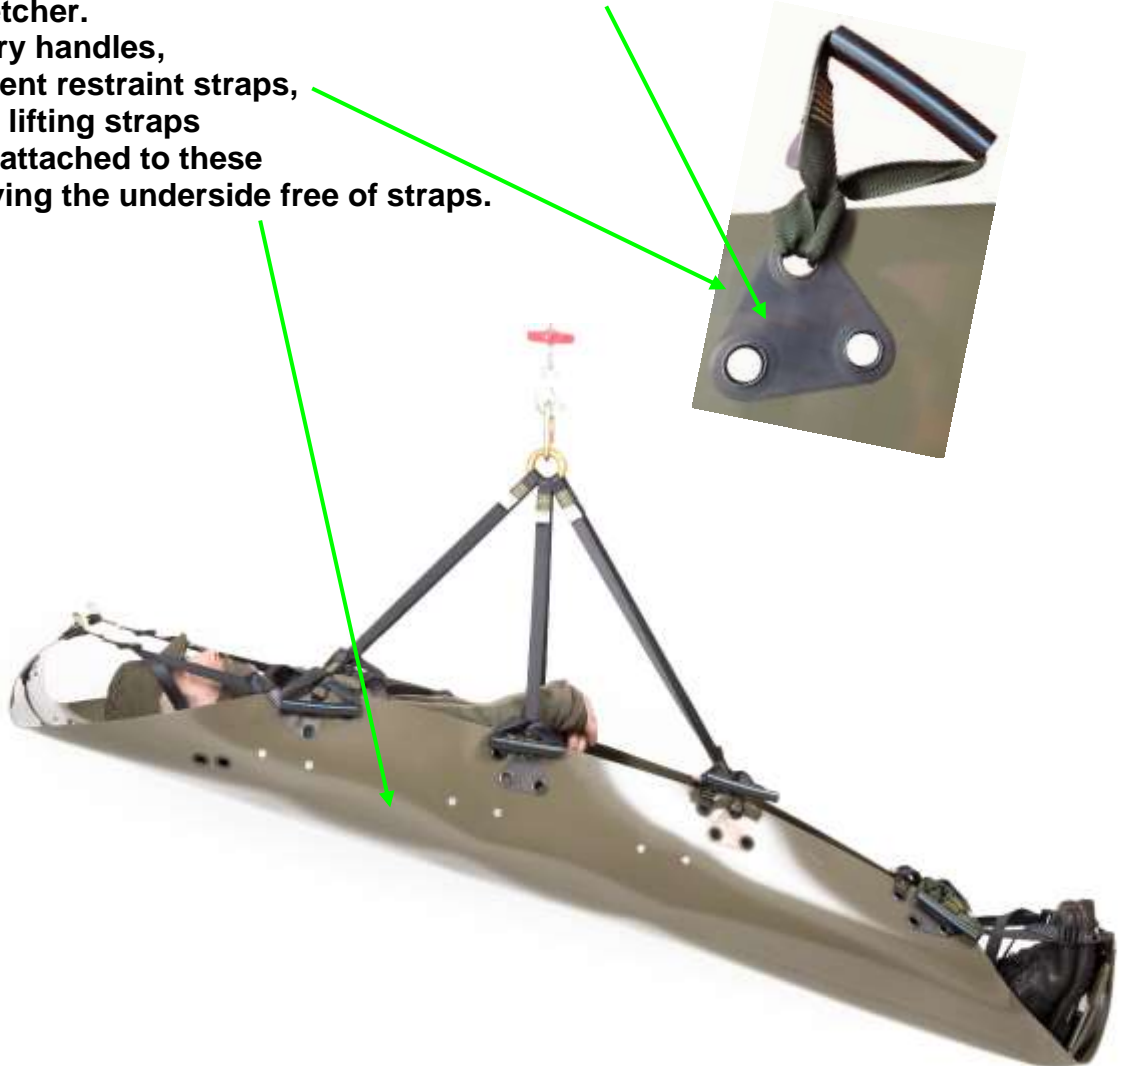

RollUP

- *the rescuer friendly rollable stretcher !*

- **The underside is free of straps !**

Making this possible are the patented triangle steel plates alongside the stretcher.

Carry handles, patient restraint straps, and lifting straps are attached to these leaving the underside free of straps.

- **TÜV and German Army tested and certified!**

The RollUP stretchers successfully passed the TÜV Austria's and the German Army's tests.

TÜV tested and confirmed compliance with the following norms:

EN 813:2008 Seatbelts, EN 1497:2007 Rescue belts, EN 354:2010 Connecting straps

EN 358:2000 Safety belts and connecting straps, EN 12277:2007 Descender straps

DIN 23400:2008 Rescue stretcher for mining

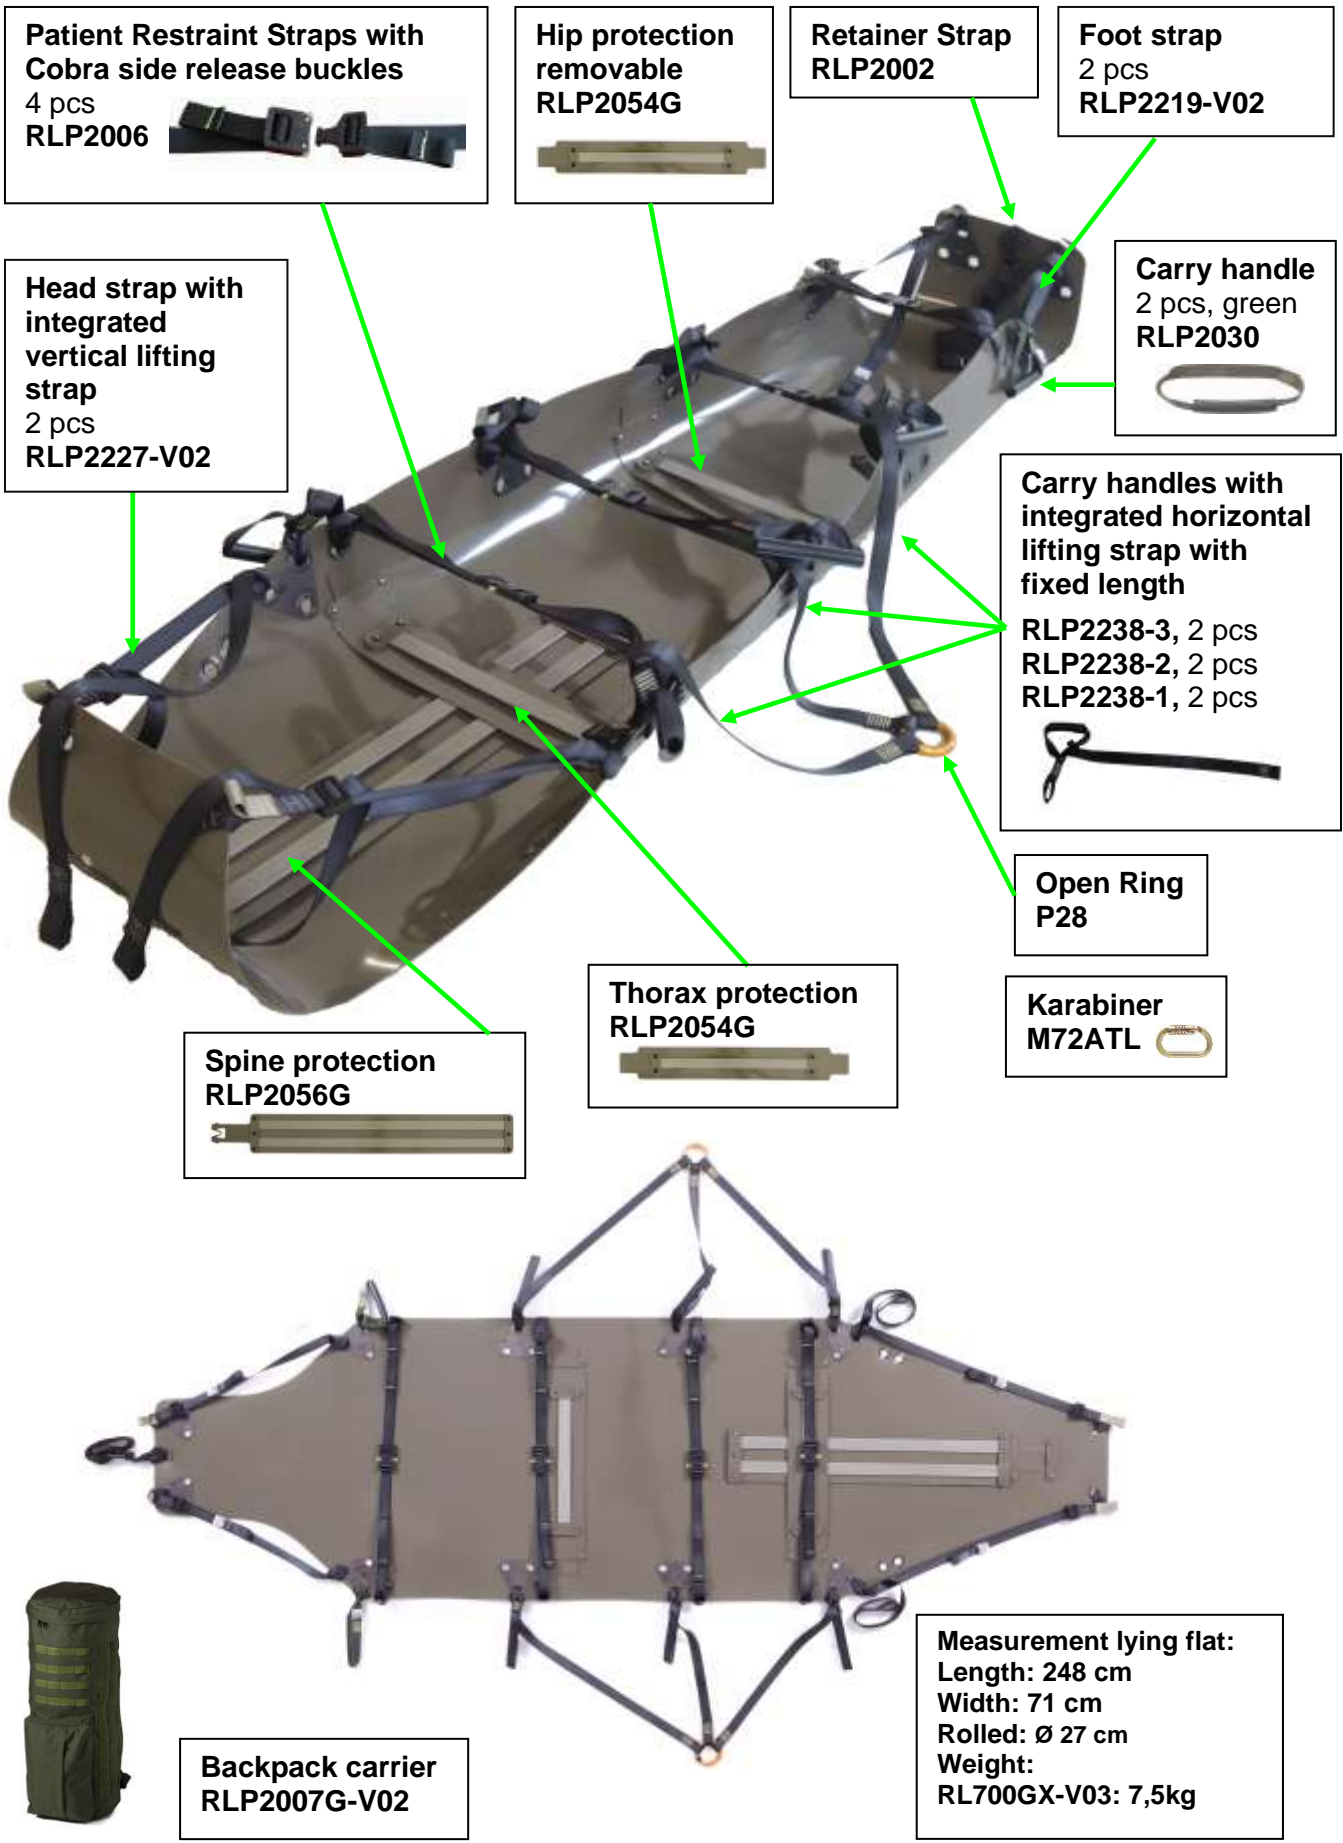

**German Army approval for helicopter lifting,
Reg.-Nr.: 6545-2013-01, Issue 4 of 14.8.2015**

**Maximum load for lifting of patient
with helicopter: 130 kg**

Temperature range: -30° to +50° C

RollUP Tactical with integrated Lifting Bridle RL700GX-V03
